TIPS AND INSTRUCTIONS

FUTURE TELLING

Future telling are short and dramatic performances that illustrate a particular scene from the future. This can be described as the role play of the future.

01 Re-read the scenario and the description of the future persona. Then focus on a story you want to tell.

02 Identify the main situation you think is best to showcase the story of the future you're trying to show.

03 Think about what surrounds the situation (circumstances, who is involved and where?)

04 Try to find/create any props that might help you convey the story.

05 Present your performance to live audience.
